PROFESSIONAL SUMMARY

Full-Stack Developer with 5+ years building and supporting enterprise web applications end to end - React and TypeScript on the front end, Python (FastAPI) and Java (Spring Boot, NestJS) services on the back end, and SQL/NoSQL data layers on Azure. Comfortable moving between codebases, stacks, and client environments, with a track record of shipping production systems, integrating cloud and identity services (Azure AD, Microsoft Graph), and troubleshooting across frontend, backend, and database layers. Holds a valid Canadian Open Work Permit and is available to start immediately in Calgary - no sponsorship required.

SKILLS

Languages: JavaScript, TypeScript, Python, Java

Frontend: React, Angular, React Native, Material UI, HTML, CSS

Backend and Integration: REST APIs, FastAPI, Spring Boot, NestJS, Microsoft Graph API

Cloud and DevOps: Azure App Service, Azure Functions, Azure AD, Managed Identity, Key Vault, Cosmos DB, Azure DevOps, CI/CD (Jenkins, Azure Pipelines)

Databases: Azure SQL Database, DB2, MongoDB, MariaDB, SQL

Practices: RESTful API design, RBAC, microservices, system integration, technical documentation

PROFESSIONAL EXPERIENCE

Eastech System Limited

System Developer | Kowloon Bay, Hong Kong | May 2025 - Present

- Develop and enhance an enterprise web-based message and case management system supporting internal operations and customer communications.
- Design and integrate RESTful APIs for workflow execution, email processing, tagging, and role-based access control.
- Build backend services on Python FastAPI and Azure Functions, maintaining stable integrations across the platform.
- Integrate Azure AD authentication and Microsoft Graph API for secure user and resource management.
- Design and optimize Azure SQL queries, views, and functions for complex, performance-sensitive data retrieval.
- Build reusable React and Material UI components to improve maintainability and consistency.
- Troubleshoot issues across frontend, backend, and database layers using structured logging and debugging.

PROFESSIONAL EXPERIENCE (CONTINUED)

Arch-Partnership Limited

Analyst Programmer | Kwun Tong, Hong Kong | Mar 2021 - Jan 2025

- Developed and maintained enterprise insurance applications supporting digital forms, e-signatures, and payment processing workflows.
- Built web and mobile applications using React, Angular, and React Native.
- Designed and maintained backend services with Java Spring Boot and NestJS for integrated business workflows.
- Engineered and managed DB2 and MongoDB using SQL and NoSQL scripts.
- Implemented CI/CD pipelines with Jenkins and Azure Pipelines, reducing manual deployment effort.
- Conducted API performance and stress testing to validate stability under high traffic.
- Provided technical support and problem-solving across projects using knowledge of complex systems.

EDUCATION

BEng in Computer Engineering

Hong Kong University of Science and Technology (HKUST) | Jan 2021

Associate of Engineering

Hong Kong Community College (HKCC) | May 2015
